

## *2017 Angel block-of-the-month*

*As promised, we are going to be doing a block of the month, using a basic shape angel. This is a pattern where you are expected to use your imagination and make the block your own. On the EQG website under Links, there will be a file called BOM 2017. In this file is the basic shape with the basic must-haves. There are also examples of what you might do. You can embroider, paint, color with crayons or markers, applique, wool applique, play with your background fabric each month. In other words, do what you want and be creative. You might put the name of each month. You might put your favorite saying. We will have several live examples at the January meeting and a couple tops to show you. We hope to have a display in the 2018 show showing our many varied talents using the same basic shape. If you have any questions on what to do, please call Wendy at 293-9997.*

*(Thank you Wendy! Sue)*
